

COMPUTER SCIENCE COLLOQUIUM

16:15 - 17:15 @ CAB G61

Spring 2012

20.02. **Using Fourier to Hunt Down Stable Dictatorships and Juntas**
Host: A. Steger
Ehud Friedgut, *Hebrew University of Jerusalem*

05.03. **Experiments in Social Computation**
Host: A. Krause
Michael Kearns, *University of Pennsylvania*

12.03. **Is Machine Learning Tractable?**
Host: T. Holenstein
Sanjeev Arora, *Princeton University*

19.03. **Towards a Semantic Program Development Environment**
Host: P. Müller
Francesco Logozzo, *Microsoft Research, Redmond*

02.04. **The Smart Phone: Why We Don't Have One and What It'll Take to Build One**
Host: F. Mattern
Anind Dey, *Carnegie Mellon University*

23.04. **Scientific Data Management: Not Your Everyday Transaction**
Host: M. Püschel
Anastasia Ailamaki, *EPF Lausanne*

07.05. **Probabilistic Techniques for Mobile Robot Navigation**
Host: J. Buhmann
Wolfram Burgard, *Universität Freiburg*

14.05. **The PlusCal Algorithm Language**
Host: J. Gutknecht
Leslie Lamport, *Microsoft, Mountain View*
